

ASIZ
Att. Mr. Vladimir Kotov, president

Harelbeke, 4th of November 2019

Dear Mr. Kotov,

Concerning : BIOT 2019

On behalf of the member countries of the European Safety Federation (ESF), I would like to congratulate the Russian Association of PPE Developers, Manufacturers and Suppliers on the holding of the XXIII International Specialized Exhibition "Safety and Labour Protection-2019" (hereinafter - BIOT).

The important role of ASIZ, not only in Russia, but on global level as well, is confirmed by the fact that experts from all over the world come to BIOT and to the international forum. The fact that the exhibition is organized every year shows the commitment of ASIZ and its members to continue working on improving occupational safety and health not only in Russia, but also in the international community. The exhibition has developed to be an excellent forum for all relevant stakeholders, including public authorities, manufacturers, distributors, certification authorities and users of PPE. This is an opportunity for all of them to exchange ideas and discuss news on the market development, products, services and technologies. Certainly BIOT should be considered as an example of exhibitions that contribute to ensuring safety in the workplace.

The ESF' member countries and its Secretariat wish ASIZ prosperity and all the best to both the exhibition itself and its organizers.

Henk Vanhoutte
Secretary General
European Safety Federation
